

# Welcome to ProCare!

We are using the program ProCare for our attendance and billing platform. If you have already registered your child using the CatCare link, your next step is to download the ProCare app. To do that simply access your app store (on your phone) and download the app titled ProCare by Kinderlime Inc.

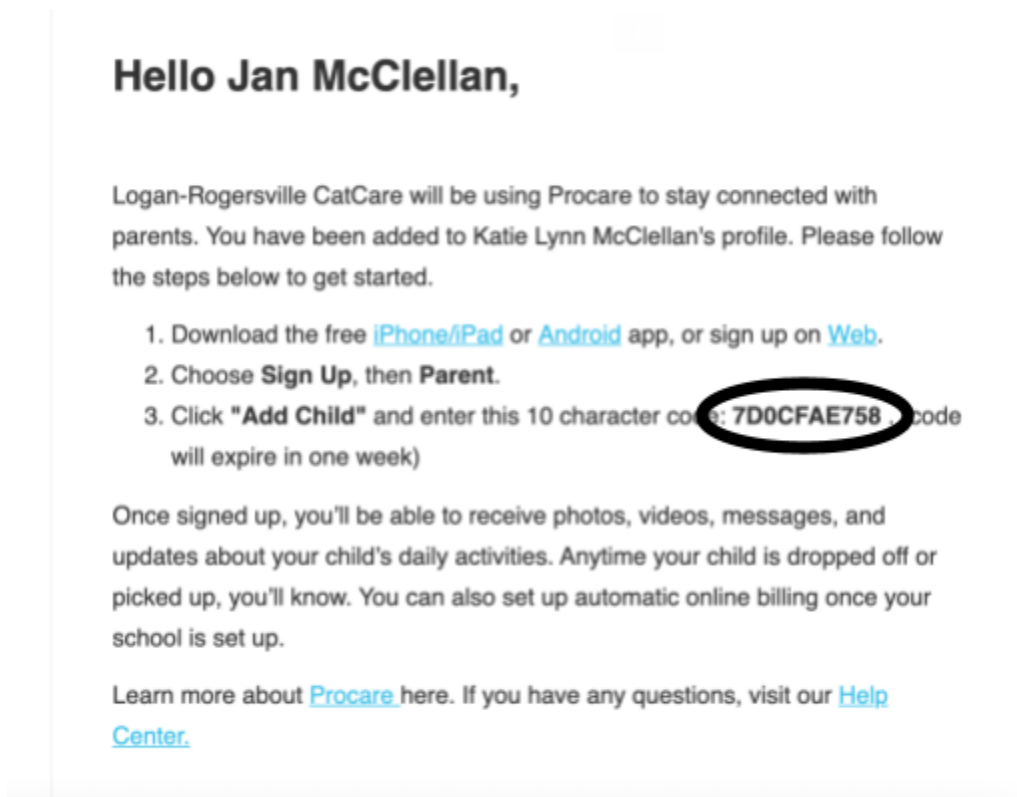

The email sent (pictured below) has a registration code that you will use once you open the app.

For the app, you will download the app to your smartphone or tablet. Identify yourself as a parent and fill out your name, email address.

The ProCare app will state “you haven’t added a child yet” and you’ll need to add your student. You have received an email from ProCare after you were enrolled that looked like the below:

You will use that code to add your student. Once you have done these steps you can view student attendance, pay your bill, and see if your child is checked in/checked out daily.

Please let us know if you have any questions and how we can help.
