

Public Information Program

KB

The people in the community are interested in their schools as an extension of their homes; an extension which exists to perform a special function in the development of their children. Therefore, the Board shall attempt to:

1. Keep the public informed about the policies, administrative operation, objectives, educational program, and successes or failures of the schools.
2. Provide the means for furnishing full and accurate information, favorable and unfavorable, together with interpretation and explanation of the school plans and programs. It will be the responsibility of the superintendent and his staff to inform the public regarding the administration and educational program of the district.
