RE: Nurse Office visits – protocols (2021-2022 school year)

When students are sent to the Nurse’s Office at our campuses with symptoms of any contagious illness (i.e. Covid, Strep, flu, pneumonia, etc.) the Nurse will isolate as much as possible the student from other individuals. This may be in the Nurse’s Office, or in a space set up for this purpose – depending on campus. The Nurses’ Offices will also have a supply of facemasks – and will ask a student to wear a mask until a parent/guardian can pick them up. This will not be a requirement – but a request to avoid spreading of contagious illnesses to others. Students will be asked “if they mind wearing a mask” until they can be picked up – but also told “it is not required”. Students who had a medical exemption from facemasks last year will not be asked to wear a mask. We are simply trying to limit the spread of illnesses to other students and staff as much as possible. If you have any issue(s) with this protocol, please call District Nurse Nikki Thorn (307-339-8007) – or your student(s)’ school office and let the Principal know your requests of how to handle your student(s).
