

# Car Riders

Parents that pick-up students at the end of the day,

To increase safety for students being picked up at the end of the day, please adhere to these very important points:

- Park ONLY on the shoulder on the right-hand side
- When lining up, the first vehicle will park closest to the bus gate on the shoulder
- Do not block driveways or intersections
- If you cut through the car line, the student will not be released
