[Help, I forgot my password](#)

Sign in using your shortened username and the same password you use to check your email. Students' usernames contain their last name and their student ID number. Faculty usernames are USUALLY their last name and first initial. Students should contact the librarian or SysOp at their school for help with usernames and passwords. Staff members should contact the helpdesk via email at helpdesk@apsb.org.

Links to almost everything you will need to work remotely are included on the ClassLink dashboard.

Access to your H: drive is available by clicking on the “Cloud” icon at the bottom of the dashboard and then choosing “School Network”.
