Dear Parents/Guardians and Students,

The first priority of our school district is the safety and well-being of our students and staff. Due to the number of staff that are currently in quarantine, Inspired Vision Academy's Elementary School will be moving to restricted campus access beginning tomorrow, Wednesday, January 27, 2021 and continuing through the end of this week, January 29, 2021. Restricted access means that the campus is shifting to a virtual learning environment for the rest of the week for all Prekindergarten through 4<sup>th</sup> grade students.

This decision is being made due to the decreased number of faculty and staff available for in-person learning. This decision has been made after consultation with the Texas Education Agency. We have experienced an increase in the number of staff impacted in the last 24 hours which limits our ability to effectively manage our campus.

If you have limited access to the internet, staff will be on campus to meet the needs of these students. Teachers will continue to teach each day and students will continue to receive instruction through their individual hot spots and tablets/Chromebooks provided by the district. Please ensure your students are logging in each day to ensure they receive instruction and are not counted absent. Staff will be available daily to address any technology difficulties experienced. Staff will also be available to address questions from students related to remote instruction.

Again, the safety of our students and staff is our first priority. We apologize for any inconvenience this transition to restricted campus access may cause. Please continue to monitor our website at <https://www.apluscharterschools.org/>, Facebook <https://www.facebook.com/realaplustharterschools>, as well as our notification system all calls for the latest information.

Sincerely,

Dr. Brenton White  
Superintendent
