

Grandview School

Pandemic / Virus Response Plan

School Year 2021-2022

In an effort to keep the campus of Grandview School open for the School Year 2021-2022, the following guidelines and protocols will be followed. The district commits to being proactive in terms of safety and maintaining the health of all students, staff and patrons who visit the campus.

This plan is subject to change and may be amended, added to, revised, edited, or changed in any way without notice and at any time.

Prevention Guidelines and Protocols for Parents and Students:

1. All parents will be asked to ensure their children are free of all known Covid-19 Symptoms before sending them to school each day.
 - a. Symptoms include:
 - i. Fever, greater than 100 degrees F.
 - ii. Chills or repeated shaking with chills
 - iii. Constant Cough
 - iv. Shortness of breath or difficulty breathing
 - v. Fatigue
 - vi. Muscle or body aches
 - vii. Persistent Headache
 - viii. New loss of taste or smell
 - ix. Sore throat
 - x. Congestion or runny nose
 - xi. Nausea or vomiting
 - xii. Diarrhea
 - xiii. Known close contact with a person who is lab confirmed to have Covid-19 if exposure to the active confirmed case occurred within the last 14 days.

Existing Law provides that anyone with a communicable disease is prohibited from attending a private or public school. It is the duty of the parent or guardian, and the school, to exclude such persons from school until the period of isolation or quarantine ordered for the case expires or until permission has been given by local health officers. See 63 O.S. § 1-507

2. Students who arrive at school with any of the known symptoms listed in number one above will be isolated at school until a parent or guardian arrives and then will be sent home for:

- a. A parent that notifies the school that their child has a known symptom as listed in number one above and informs the school they will keep their child home as an excused absence, will be allowed to send their child back to school once the symptom(s) are no longer present, except for in the case of a fever. Children who become feverish should remain home for an additional three days after they are fever free.
 - b. A parent that contacts the school in regards to their child that is experiencing any of the known systems, but has a doctors' note that they are being treated for the cause of the symptom(s) and are not contagious, will be allowed to send their child to school.
3. The district will restrict all people traffic inside the school buildings to the greatest extent possible. Parents are encouraged to conduct all school business via phone, text or email.
 4. While on campus, parents and guardians agree to maintain social distance of six feet when possible.
 5. Students will need to bring a clean, non-breakable water bottle to school each day. Drinking fountains will be open to refill water bottles and water bottle filling stations drinking from water fountain will be highly discouraged.
 6. Students will not be required to wear face masks or shields, however, they will be allowed to wear them provided they bring their own and do not share or exchange them with their peers.

Exposure to COVID-19 Protocol and Guidelines

1. If a student or staff member becomes infected and tests positive for COVID-19, that person will be quarantined at home until cleared by a Medical Doctor or has completely recovered and will be allowed to return after a 14 day period.
2. The district will contact our local county health dept and report the case.
3. Any student or staff member who had close contact with a person who is lab confirmed to have Covid-19 will be required to quarantine at home for 10 days unless they have been vaccinated.
