## **Annual School Wellness Policy Assessment September 20, 2017**

The School Healthy & Fit Committee conducted a Triennial assessment of our School Wellness Policy. The committee reviewed the school's physical activities minutes. The committee decided the school was still on target with State guidelines. Our Wellness policy is equal to other model wellness policies. The committee determined the policy was in compliance and was on target in obtaining the goals of our wellness policy. The committee addressed the business of the Child Nutrition Smart Snack guidelines. The committee determined that both sites were in compliance and meeting all guidelines. The Elementary school store's new snack options were discussed and the committee approved the new choices.
