Highly concerned	Concern for Some	Concern for Some	Concern for Some	Concern for Some	Take bullying issues seriously. Bullying issues aren't being resolved. They are being swept under the rug or not handled appropriately. Employees need training to recognize bully and how to handle it, not to mention to care that it is happening. Kids actually need time to interact from a young age together in positive manners.
No Concern	No Concern	No Concern	No Concern	No Concern	Speak about mental health in classrooms. More in an avid way rather than once a semester.
No Concern	Concerned	Concern for Some	No Concern	No Concern	I've been told some teachers allow kids to take off their masks if they want which tells me they are not concerned with our children's health and well-being.

[Children with disabilities]	Is there a group of students that you believe were disproportionately impacted due to COVID-19? [Students experiencing homelessness]
The lack of age appropriate learning materials. While this is probably more of a federal guideline, kids' development hasn't changed yet kids are asked to do things daily in a school setting that aren't age appropriate like sit the majority of the day in a desk, reading expectations that aren't age appropriate, and the obscene amount of homework for lower levels but not the same rigor for older students. 	Highly Pressing Need		Drug testing for all students that compete in anything from sports to Quiz Bowl. Drug use is an epidemic with our students. Students are experimenting with drugs as young as Primary age. Our district needs to take a stand against drug use. We need to make a statement. If you use, you lose! It's simple! Drug tests are still required for employment. We need this greatly in our district!! Our job is to guide students into a better life. We can help set guidelines that will lead Nashville students into a more promising future. <p>Yes. I think there needs to be a stronger emphasis on typing. Many students at the high school level type with two fingers or cannot type at all. Many students also can't do basic tasks on a computer, such as sending an email. These are things that were ingrained into my brain at the junior high level. We give students too much credit for being tech savvy, when in reality, some things need to be taught in the classroom and re-visited at multiple grade levels.</p>	Somewhat Impacted	Somewhat Impacted	Somewhat Impacted	Somewhat Impacted	Somewhat Impacted

	Highly Pressing Need		Drug testing for all students that compete in anything from sports to Quiz Bowl. Drug use is an epidemic with our students. Students are experimenting with drugs as young as Primary age. Our district needs to take a stand against drug use. We need to make a statement. If you use, you lose! It's simple! Drug tests are still required for employment. We need this greatly in our district!! Our job is to guide students into a better life. We can help set guidelines that will lead Nashville students into a more promising future. Concerned	Highly concerned	Concerned	No Concern	No Concern	I think the kids need some help...maybe some need counseling at school to help them. The last year was a wild and crazy one. Kids not getting the one on one contact that was given in the past...social distancing kept kids really from socializing as much!
