Title VI Meeting Indian Education

Oct. 8, 2020

I hope this clarifies any questions regarding the unidentified vehicle on campus: Yesterday afternoon, Wed. Oct. 7, we had an unidentified individual and vehicle on campus. Individual did not check in at office, or get out of vehicle at all. Individual was spoken to by staff and left campus. Individual stated he was wanting to use the internet, but was made aware without proper clearance from office, individuals cannot be on school property. Teachers and Students were told to remain in the building until individual and vehicle were identified and gone from the campus. The individual left the campus. Proper authorities were notified immediately per school policy. LeFlore County Sherriff Office made contact with the individual (not on campus). LeFlore County Sherriff Office informed administration the individual was told not to be back on school campus. The deputy asked to be notified if the individual returns to school property.

Title I Meeting Information

8/27/2020

Dear Whitesboro Family:

Our administrators, teachers and instructional support staff have been working hard to develop virtual learning assignments that will help our students grow academically. All students will be given virtual assignments to complete on Fridays. We want to stress the importance of completing and returning these assignments to their teacher(s). These virtual assignments will receive grades and help teachers monitor each student's academic progress.
