Versatrans My Stop

Hello,

The transportation department is excited to announce the implementation of a new application available to Dayton ISD. Versatrans My Stop® is a mobile app that allows parents to track their students' bus locations and arrival times, as well as receive notifications on delays, breakdowns, and other pertinent information.

The purpose of this email is to communicate this upcoming change to all school transportation advocates and equip everyone with the necessary information to promote Versatrans My Stop and assist parents and guardians with the program.

Attached are two different forms for your review:

Using My Stop: Detailed explanation of how to use the My Stop app

Users FAQ: Frequently Asked Questions from parents and answers to provide to them

Our goal is for all school transportation advocates to gain an understanding of how My Stop works. We are asking all recipients of this email to download the application and login with the credentials listed below:

Username: Use your "Family ID#" from Skyward **Password:** Use your "Family ID#" from Skyward

Your family ID# will allow you to select all your students. With these credentials, you can login to the application and navigate through the different screens. Please refer to the attached forms to learn how to navigate through the application.

We anticipate that the My Stop app will assist parents with the location of their student's bus. Please let us know if you have any questions at this point. We can be reached at 936-258-7993.

Thanks,

Paci Cantú

Dayton ISD Transportation Director
