September 22, 2021

Dear Parent/Guardian:

Your student's 2020-2021 OSTP test scores are now accessible on the eMetric Parent Portal at <https://okparentportal.emetric.net>. You will need your student's DOB and state testing number to gain access to testing information; a printout is available on request. Please contact the elementary at 918-762-3618 if you would like your student's state testing number or a printout.

As many of you know, Oklahoma has continuously altered many of the standards over the last several years; however, the faculty at Pawnee Elementary is persistently working to not only meet the academic needs of all students, but also adapt the teaching methods to meet those standards. Covid-19 has also thrown many obstacles in the way of our students, teachers, and schools over the last year and half. We are excited about the growth potential of our students and are already beginning to see them flourish in 2021-2022. It is our mission to equip students with the skills necessary to be successful in the classroom today, as well as in their future educational and personal endeavors. Your participation and support are always welcome and appreciated in this mission.

Sincerely,

Tracy Burnett, M. Ed.
Pawnee Elementary Principal
