

LISD

Outstanding Graduate Award For Notable Achievement

Outstanding graduate nominations can be made by any person from any walk of life, whether it be a friend, relative, or someone who is simply familiar with an outstanding person who has graduated from the Livingston schools more than 20 years ago.

For a nominee to be seriously considered, he or she should have been actively involved in the community, achieved extraordinary career status; made outstanding contributions to an area, state, etc.; and/or a combination of these achievements. The number of people affected and depth of involvement are significant.

When listing criteria you feel makes a person an outstanding graduate of Livingston school, please be specific and concise but do not assume that the nomination and selection committees are aware of the nominee's achievements; list everything that you feel makes this person outstanding. Just because a person is well known does not mean he or she will be selected.

Application deadline is March 1

The application forms should present information and notable achievements. For your nominee to qualify for consideration, information in parts one and two should be completed.

Part three is optional; supplemental information to support and/or clarify statements you make on the application may be reduced, cut and pasted onto ONE sheet, front and back, or onto TWO sheets, front only.

Part One: Please complete thoroughly!!

Please print clearly
